

## Wednesday 29th September

### III Workshop of the European Project Innoinvest

**Organise:** MálagaTech Park

**Time:** 9 a.m. – 3 p.m.

**Location:** Conferences Room 1.4

*Closed activity after invitation*

The III Workshop of the project Innoinvest focus on analysing the current partner practices, tools, resources and plans for the future regarding investments process in order to reduce the risk and improve the quality of professional services for SME.

The objectives of this new meeting focus on analysing and improving the validation process: finding the best ways of getting the business partners who support the validation process or may also co-finance the investment (short – term and long term equity funding).

### Powerfull conversation: How to survive to the Next Generation

**Organise:** Vodafone + TECH friendly

**Time:** 10:15 a.m. – 11:00 a.m.

**Location:** tbc

*Open activity for the public*

An informal conversation between Vodafone and TECH friendly about the current landscape of NEXT Generation funds. Keys for applying for the funds, opportunities in the field of digital transformation, technological advances in Smart City solutions, etc. Aimed at cities, municipalities and territories.

### Innovative projects led by our cities: Ermua and Viladecans

**Organise:** Vodafone + TECH friendly

**Time:** 11:45 a.m. – 12:30 p.m.

**Location:** tbc

*Open activity for the public*

Ermua will present its "IoT Basque Izarra Lab" laboratory and Viladecans will present its "Vilawatt" initiative. IoT Basque Izarra Lab is a space where Basque companies developing IoT solutions share skills and know-how to other sectors of economic activity, showing in a practical way success stories in the application of IoT. For its part, Vilawatt is a pioneering energy transition initiative driven by citizens, companies and the city with the aim of creating a more efficient energy management operator. A project that stands out for its innovative and participatory nature.
